

PDF-XChange Editor

The smallest, fastest and most feature-rich free PDF viewer/editor on the market.

Create, view, edit, annotate, OCR and digitally sign PDF files - and that's just the beginning. Please see below for a breakdown of the main features of **PDF-XChange Editor**.

The **PDF-XChange Lite** (<https://www.tracker-software.com/product/pdf-xchange-lite>) virtual printer is included with this product at no additional cost.

More than 60% of the features in **PDF-XChange Editor** do not require a license to use. The remaining features, which are clearly identified, will place a 'trial' watermark on output if they are used without a license.

PDF-XChange Editor Plus includes additional functionality for the creation and editing of fillable forms and the creation of customizable dynamic stamps.

► Presenting Build 332.0 Released Aug 26, 2019

Get Dynamic. Get Efficient. Get Productive. Get PDF-XChange Editor.

Simply put: the smallest, fastest, most feature-rich PDF software available. Create, view, edit, annotate, OCR* and sign PDF files – and that's just the beginning. If you work with PDF then this fully-customizable product will optimize your work process to levels that no other product can achieve.

PDF-XChange Editor can be used to create PDF files from scanned documents, images, text files, Markdown files and much more. This software can also be used to convert **Microsoft Office** documents into PDF** – a feature that many PDF applications do not offer. There are over a hundred features available, including more than thirty tools that can be used to assist in the creation of document comments, annotations and links. These tools make editing PDFs a finely-tuned, precision process that produces documentation and image files of the highest quality. Our user-friendly functionality is diverse enough to meet the needs of all practitioners from novices to professionals. Please see below for an extensive list of all available features and functionality.

*The OCR process identifies text in documents and uses it to create an invisible text layer that is placed on top of the existing text.

**Please note that source files must be text-based in order to be converted into editable text.

The **Enhanced OCR** plugin is now available as an optional extra in **PDF-XChange Editor**. It is more accurate, dynamic and faster than the default OCR engine, and contains a range of extra features. Further information on this plugin is available [here](https://www.tracker-software.com/product/ocr-plugin). (<https://www.tracker-software.com/product/ocr-plugin>)

Our support team endeavor to respond to all queries within eight working hours – and we are usually much faster. We are available via email at support@tracker-software.com. (<mailto:support@tracker-software.com>) Alternatively, browse [our free support forums](https://www.tracker-software.com/forum3/viewforum.php?f=50) (<https://www.tracker-software.com/forum3/viewforum.php?f=50>) and [Knowledgebase](https://www.tracker-software.com/knowledgebase) (<https://www.tracker-software.com/knowledgebase>) for the answers to your questions.

Free stamp collections to use in conjunction with **PDF-XChange Editor** are available [here](https://www.tracker-software.com/stamp_collections). (https://www.tracker-software.com/stamp_collections)

Please note that if it is intended to incorporate and/or distribute this software with other software for commercial profit then you must first gain permission from Tracker Software Products.
